Position Title:
Public Health Nurse

Best part of your job:
The most rewarding part of my role is the team I work with at CCS, such as the other nurses, the case workers, the office assistants, and management. We all work together to provide the best care through case management for our clientele and their families.

Position Title:
Public Health Nurse

Best part of your job:
The most rewarding part of my job is helping moms and their babies get connected to the resources that are available in the community. I enjoy the work of promoting a mother's health and wellness so that she can give more to her children. Seeing the joy of a mom and her family as they get help with these things is a wonderful feeling.
